

SPECIAL PROJECT

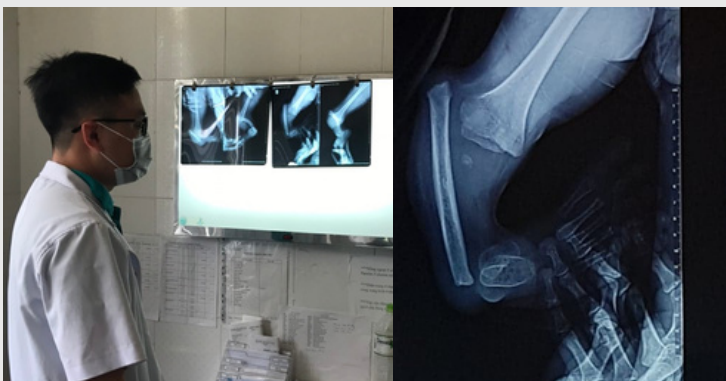

Childrens Hope In Action

New leg New life

Hy is a 4 year old boy from Hoi An who was born with an extremely deformed right leg. This greatly affected his mobility and his ability to lead a normal life. His mother struggled to provide for his needs. She approached CHIA to help her and Hy. For three years Hy has attended CHIA on a daily basis. During that time he has received much support from the CHIA family.

Recently it was decided that Hy should have his deformed limb surgically removed and a prosthetic leg fitted

Please support this ongoing project.

Improving lives, saving futures
